

Tranformed

- Wild mice Lab mice

- Biosynthesis Generation of Precursor Metabolites and Energy Degradation Utilization Assimilation
- **Child Classes** Amino Acid Biosynthesis
- Amino Acid Degradation Aromatic Compound Biosynthesis
- Carbohydrate Biosynthesis Cell Structure Biosynthesis
- Cofactor Carrier and Vitamin Biosynthesis
- Fatty Acid and Lipid Biosynthesis Fermentation

Glycolysis

- Nucleoside and Nucleotide Biosynthesis Nucleoside and Nucleotide Degradation
- Pentose Phosphate Pathways
- Secondary Metabolite Biosynthesis
